INDUSTRIAL WORKWEAR

PRODUCT NAME

CHATHAM ESD

KEY FEATURES

- Twist Lock Fit System
- Composite Toe Cap & Midsole
- Rebound EVA Midsole
- Lightweight Outsole
- ESD rated

ITEM DESCRIPTION

Looking for top-notch performance? Check out Apache's new Chatham trainer. Built with high-quality black mesh and a KPU upper, it features the Twist Lock Fit System for a perfect, precise fit. The AP Return outsole is designed for maximum comfort and optimal energy return with each step. The midsole is made from rebound EVA, a lightweight and resilient material that boosts sole energy feedback. The thin rubber outsole keeps the shoe light whilst providing heat and oil resistance up to 300°C and excellent slip resistance. It also comes with a composite toe cap and midsole protection. Designed with a wide fit, it includes a PU foam comfort footbed for every step comfort.
